ISRAEL TRADE MISSION

MAY 20-26, 2017

Concurrent with BIOMED & New Tech Exhibition 2017 &
National Life Sciences and Technology Week

TRADE WITH ISRAEL

- Israel is a global center for hi-tech design and R&D with hi-tech and defense dominating its trade portfolio. There are ongoing opportunities for U.S.-Israel commercial partnership specifically in ICT technologies such as cybersecurity, safety and security equipment services, defense equipment, medical technologies, and biotechnology products. Power generation, water technologies, renewable energy, and education/training also represent good opportunities. Israel also imports multiple agricultural products that could be sourced from Montana.

MONTANA- ISRAEL CONNECTIONS

- Bioscience, photonics & optics, military technology, water technology, agriculture, functional foods, cybersecurity...

WORLD TRADE CENTER®
MONTANA

**We are pleased to announce that the first six businesses that commit to this mission will be eligible to receive a \$1200 travel stipend from MT DOC.*

Montana World Trade Center trade missions are powerful tools to help you initiate or grow business in foreign markets. We do the leg-work for you—prepping you with actionable information, facilitating 1:1 meetings with pre-screened potential buyers and partners, coordinating logistics and even helping you to access grant funds to help pay for the trip through our partners at Montana DOC.
