

Mirra Valdez is the Branch Manager of the IFT Utah office. She holds a bachelor's degree in business management from Weber State University.

Starting in Export Operations 8 years ago, she has proven her dedication to the company and IFT's business partners while working her way up to Export Operations Manager and ultimately accepting the position of Branch Manager.

In addition to helping the company grow through relationships with our business partners, she is responsible for the development of operations and pricing personnel, training on the export and import process for FCL/LCL/Air/Breakbulk/RoRo shipments including title validation and hazmat compliance and providing quick resolution to the trials that can occur in the industry.

Outside of work she enjoys hiking, camping, and sailing. She also enjoys traveling as it inspires her to try new things.
